

PERIOD TRACKER & JOURNAL

A simple, thoughtful way to notice patterns in your cycle, symptoms, mood, energy, and everyday wellness.

MY CYCLE JOURNEY

Name: _____

Year: _____

A Gentle Reminder

- Your cycle can vary from month to month.
- Use this journal to record what you notice rather than to diagnose a condition.
- If something concerns you, bring your notes and questions to a qualified healthcare professional.

Printable • Undated • Designed for personal use

How to Use This Journal

Use one monthly section for each cycle. Record the first and last days of bleeding, note symptoms and changes you notice, and use the monthly review to reflect on patterns. You do not need to complete every section every day.

Getting Started

- Write the date your period begins in the monthly section.
- Record flow, symptoms, mood, energy, and lifestyle notes in a way that feels manageable.
- Use the cycle overview to compare observations across months.
- Use the healthcare questions page to prepare for appointments.

My Tracking Preferences

- I prefer to track: ■ Daily ■ A few times a week ■ When I notice changes
- My main reasons for tracking: ■ Awareness ■ Symptom notes ■ Appointment preparation ■ Other
- The information I most want to notice: _____
